GERMAN SUBMARINE REPORTED OPERATING OFF EASTERN COAST ATTACKED VESSEL FLASHES S. O. S. CALL PRIOR TO GOING DOWN

The Way the Boys March Into Camp Sherman, Chillicothe

"ROOKIES" ENTERING TRAINING CAMP

The physical examination of the recruits for the new national army shows results that surpass the expectations of the military surgeons. At a great eastern camp only 3 per cent were found unfit for military duty and recommended for discharge from the national army. As the medical examinations have been unusually searching, this low proportion is considered remarkable by officers who point out that at Plattsburg nearly 400 students, or 9 per cent, were re-

jected for physical disability. After their physical examinations the recruits are inoculated against typhoid and paratyphoid. The European method of inoculation has been adopted whereby one anti-typhoid and two anti-paratyphoid serums are combined in one. This reduces the number of subsequent inoculations to two instead of seven as formerly. Much attention is also being paid to physical drill, and the recruits are put through the exercises devised by

Major Koehler, the officer who trains the West Point cadets. The officers are careful not to overtax their men, and rests are frequent. These exercises not only straighten the men and take the kinks out of their shoulders, but they train them to quick obedience to command. Bodies as well as minds become accustomed to act in unison. The picture shows a body of drafted men entering camp under the escort of soldiers.

Distress Message Picked Up By British Steamer and Radio Plants.

ATTACK OCCURS OFF NANTUCKET

Shells From U-boat Put End to Distress Calls—Shipping Warned.

By Associated Press Dispatch.
AN ATLANTIC PORT, SEPTEMBER 15.—A BRITISH STEAMSHIP THAT ARRIVED HERE TODAY REPORTED THAT EARLY YESTERDAY A WIRELESS S. O. S. CALL WAS HEARD STATING THAT THE SHIP FROM WHICH THE MESSAGE CAME WAS BEING SHELLED BY A GERMAN SUBMARINE, THE LOCATION BEING 65 MILES EAST OF NANTUCKET LIGHT SHIP. The name of ship attacked did not come clear, only the word "Abby," presumably the last half of the name, being caught.

Additional information that a submarine was in the western Atlantic was brought by another British liner which arrived here today. Officers of the liner said they had been instructed to watch out for U-boats when nearing the American coast.

There are a number of vessels both sail and steam of which the word "Abby" is a part of their name, now engaged in the Atlantic trade.

Confirming the statement of the captain of the British ship that the S. O. S. call had been received, a representative of the R. Lawrence Smith, Incorporated, agents of the vessel, announced that the captain had stated that an American tank ship which arrived and an American radio station also received the signals of distress.

WAIVE PART OF INDEMNITY

(Associated Press Cable)
Peking, Monday September 10.—(Delayed)—Ministers of the Entente powers at Peking have advised the Chinese foreign office that the governments are willing to waive the Boxer indemnity payments for five years.

Russia waives only one-third of the first portion of the indemnity, requiring the remainder because of her financial straits.

The United States, it is said, probably will ratify the position of the Entente nations, but will not waive its portion of the Boxer indemnity which is necessary to maintain the Chinese students in America.

GOES BACK TO SWEDEN

(Associated Press Cable)
London, September 15.—Count A. Wrangel, the Swedish minister to Great Britain and the Countess Wrangel, left London yesterday for the continent on a few weeks' leave of absence.

Count Wrangel yesterday had a long conference with Lord Robert Cecil the British under-secretary of foreign affairs, presumably on the subject of the Swedish-Argentine disclosures.

HUN MINISTER DENIES ALL CLAIMS MADE

Von Eckhardt, at Mexico City, Declares Statement From Washington Only American Intrigue.

By Associated Press Dispatch.
Mexico City, September 15.—(Delayed)—Heinrich Von Eckhardt, the German minister to Mexico, tonight made a statement denying everything in connection with the disclosures from Washington that he had been employing a former Swedish Charge d' Affaires to convey information to the Berlin foreign office. He declared that he had never sent any communication through Folke Cronholm, and that he never wrote any communication recommending Cronholm for a decoration for his services to Germany.

Von Eckhardt further declared that he did not know Cronholm, personally, only having met him at diplomatic receptions or through the offices of ambassadors or some formal means. He makes formal denial of everything in connection with the Washington disclosures and in reply to an assertion that Washington had full proof, he declared that this was merely an American intrigue for the purpose of casting discredit on the representatives of Germany.

LETTER SPEAKS FOR ITSELF, SAYS U. S.

By Associated Press Dispatch.
Washington, September 15.—The German Minister's denial that he used the Swedish Charge d' Affaires in Mexico City for transmitting messages to Germany or that he had written recommending an award for those services, arouses no anxiety at the State Department where officials, although surprised at a sweeping denial, consider that their investigation determined the authenticity of the disclosures, and that the letter speaks for itself.

SHIP WORKERS OUT ON STRIKE

By Associated Press Dispatch.
Portland, Oregon, September 15.—Union employees of wooden shipyards went on strike today for higher pay, and the adoption of the closed shop principle. It was estimated that about 2,000 men quit work. Strikes were also called for today at shipyards at Astoria and St. Helens, Oregon. Union employees of wooden shipyards on the Willamette and Columbia rivers at Portland, Vancouver, Washington, also struck for higher pay, and the closed shop principle.

AUTO BANDITS HOLD UP TOWN

By Associated Press Dispatch.
Battle Creek, Mich., September 15.—Six auto bandits drove into the town of Climax about twelve miles south of Battle Creek early this morning, cut all the wires, held up the villagers and blew open the safe at the state bank. They escaped with \$7,000. It took four explosions and an hour's time to accomplish the work.

Washington, September 15.—The war credits bill authorizing new bonds and certificates aggregating \$11,538,000,000 and the largest measure of its kind in world history, was passed by the Senate today without a roll call or dissenting vote. It has already passed the House.

NEW FRENCH PREMIER HAS WON FAME AS A SCIENTIST STATESMAN

Paul Painleve, formerly French minister of war, finally succeeded in organizing a ministry to take the place of the Ribot cabinet. For a time the Socialistic Radical group presented an obstacle to the formation of a ministry, ruling that the first Socialist Radical members of the cabinet, as selected by M. Painleve should not be members of a cabinet where the united Socialists were not represented. These men, Renoult, Vincent, Benard, Renard and Long, informed the party that they had accepted the portfolio before the party had reached this decision and that there was a bond of honor to remain. The matter was then dropped. M. Painleve was noted before the war principally as a mathematician of the highest standing.

ARREST OF KORNILOFF ANNOUNCED

Petrograd, September 15.—Russia's political crisis has been solved after an all night conference. It was announced today by the Russian official news agency.

A new cabinet has been formed and its composition will be announced tomorrow.

KORNILOFF ARRESTED

(Associated Press Cable)
Petrograd, September 15.—General Korniloff, leader of the recent rebellion, and General Lokomsky, commander of the northern front, who refused to take command of the Russian armies after Korniloff was deposed, have been arrested. The actual military leader in the rebel movement, General Krymoff, is dead of self-inflicted wounds. The ultimate fate of the arrested leaders is causing wide discussion in Russia, as well as universal interest.

TENTATIVE CHARTER IS SUBMITTED

Next Session Will Be Held in Ten Days or Two Weeks, When Definite Action Will Be Taken. Some Provisions of the Document.

All but two of the city charter framers assembled Friday night for the purpose of taking further steps on the proposed charter which was submitted in tentative form by Hon. C. A. Reid.

Three copies of the proposed charter were submitted and will be carefully studied by the various members during the next week or ten days, after which time the president will call the charter framers together and definite action will be taken.

In the meantime an opinion will be obtained from the Attorney General regarding some phases that are not quite clear, so that when the charter is finally submitted it will be clear of legal obstacles, and cover the field thoroughly.

Some of the provisions of the tentative charter are:

The election of three City Commissioners, on non-partisan tickets, who shall constitute the governing power. They shall employ a City Manager. The two receiving the smallest number of votes shall hold office two years and three years, respectively, and the third for a term of four years, their successors being elected at the regular elections thereafter. Should a vacancy occur in the City Commission, the remaining two members shall elect the third member.

No member of the City Commission must interfere with the business of the city as conducted by the City Manager, unless the entire Commission takes action on such matter. In other words the City Manager has full powers to transact the business of the city, and if he fails to do it properly, he can be discharged and a new manager employed.

General laws will apply under the charter, and no property rights will be changed in the adoption of the charter.

Existing officers, including city council, is abolished when the new charter becomes effective.

If the charter is adopted at the coming election, the new City Commissioners to be chosen will organize and get busy January 2nd, 1918.

It will be the duty of the City Manager, under the provisions of the tentative charter to:

"See that all laws and ordinances are enforced, except as otherwise provided herein."

"Except as herein provided, to appoint and remove all heads of departments, and all subordinate officers

and employees of the city; all appointments to be made upon merit and fitness alone."

"To exercise control over all departments and divisions created herein, or that hereafter may be released by the City Commission except as otherwise provided in this charter."

"To see that all terms and conditions imposed in favor of the City or its inhabitants in any public utility franchise are faithfully kept and performed; and upon knowledge of any violation thereof to call the same to the attention of the City Solicitor, who is hereby required to take steps as are necessary to enforce the same."

"To attend all meetings of the City Commission with the right to take part in the discussion, but having no vote."

"To recommend to the City Commission for the adoption such measures as he may deem necessary or expedient."

"To keep the city commission fully advised as to the financial condition and needs of the city, and

"To perform such duties as may be prescribed by this Charter or be required of him by ordinance or resolution of the City Commission."

The charter is quite lengthy, and the most important points in it cannot be fully explained in single sentences, and will be taken up and published at length later on.

LITTLE CHOLERA IN FAYETTE COUNTY AT PRESENT TIME

According to a local veterinarian there is comparatively little hog cholera in Fayette county at the present time, and the indications are that the disease will be less prevalent than usual this year, because so many farmers have had their swine treated to prevent cholera, believing that every precaution should be taken to guard against the disease, particularly since hogs are hovering around \$20 per hundred weight.

A few cases of cholera exist in some parts of the county, but prompt treatment is preventing further spread of the disease, and if all farmers follow the plan of the big hog raisers in having their swine immunized before signs of cholera appear, there is very little danger of loss of a single animal from the disease.

"The most deplorable thing in the hog raising business in Ohio and Indiana is the inclination to market hogs weighing around 100 pounds or a little more," said the veterinarian in discussing the swine problem.

Continuing the Veterinarian said: "Some farmers, who a year or two ago would not have considered such a thing, have been marketing hogs weighing a trifle over 100 pounds, and ordinarily they have marketed animals that weighed 200 to 250 pounds, so that by marketing the light hogs they simply reduce the supply of meat by one half."

FOUNDATION WORK NEARLY COMPLETED

Work on the foundation of the new centralized school building on the Greenfield pike is proceeding more rapidly than on the other two buildings in the township, and the entire foundation work is virtually complete.

Next week, if sufficient brick are on the ground, the foundation walls will be gotten well under way.

The excavation work is still under way on the other two buildings in the township.

ALTERNATES NAMED MUST BE AT TRAIN

Five alternates have been named who must be at the train next Wednesday morning when the 34 men for the new National Army leave for the training camp at Chillicothe.

The five alternates named are: Elmer Ernest Sessler, Clifford Foster, Ollie Walker, Chas. Row and H. T. Wilkin.

PATTON IS NOW ON OCEAN VESSEL

Y. M. C. A. Secretary Walter Patton, who recently was granted a year leave of absence to take up Y. M. C. A. work in the American army in France, is now aboard an American steamer somewhere on the Atlantic Ocean, headed for his new field of work.

In a letter to the Herald, written September 13th, Mr. Patton stated that his vessel would sail within a few hours. He wrote from aboard ship.

The letter is brief and simply states that he had expected to sail Saturday, but had received sudden orders to board the vessel at once, and had complied.

If the vessel meets with no mishap he will be in France sometime within the next week.

LARGE AUDIENCE ENJOYS CONCERT BY PRICE'S BAND

It was a large and appreciate audience which assembled under the canopy of beautiful trees of Roger's park, Friday night, for the second of the series of concerts, and the music furnished by Price's Premier Band of Greenfield was up to the usual high standard of the band's work, drawing rounds of applause from the 600 or 800 persons in the park and in the automobiles surrounding the park.

The program rendered by the well-known musical organization was carefully arranged, and faultlessly presented, the solos and vocal choruses adding charm and diversity.

A cornet solo, "The Lost Cord," by Mr. Miles W. Townsend, was so well executed that he could not get away from his auditors without another one, which he obligingly gave. Mr. Ivan Roush, in his Baritone solo work also captivated the large audience, and was called back.

"La Marseillaise" and "The Star Spangled Banner" formed appropriate closing numbers to one of the most pleasing concerts ever given in the famous park.

The night was ideal for the concert, and many citizens from Greenfield, Washington, Bloomingburg, Jeffersonville and other surrounding towns, as well as a large number from the Roger's Park neighborhood attended.

Next Friday night the Euterpean Concert Company furnishes the entertainment.

MEN WILL LEAVE WEDNESDAY MORNING

The 34 men who form Fayette county's next contingent for military training at Camp Sherman, will depart from this city on a special train over the C. & D. railroad, Wednesday morning, Sept. 19th, at 9:00 o'clock, and it is expected that a large crowd will assemble at the station to see the men depart.

The men, who will report at two o'clock Tuesday afternoon, will probably be allowed to go to their homes if they reside near the city, for over night, and must report early the following morning.

Quite a number of alternates will be chosen who must be at the station Wednesday morning to fill any vacancy that might arise should one or more of the 34 men be too ill to go.

FAYETTE'S 34 MEN ARE URGED TO TAKE ADEQUATE CLOTHING

Fayette's 34 men, who will depart for the new National Army training camp at Chillicothe, Wednesday morning, September 19th, are requested to go dressed for the work in hand, and not to wear their "Sunday's Best," or tight shoes.

It may be some little time after their arrival in camp before they receive their entire uniform and equipment, and unless they are dressed in serviceable clothing there is danger of suffering until their uniforms arrive.

The above admonition is contained in a letter from one of Fayette's first four men sent to the training camp. He emphasizes the need of proper clothing, including heavy underwear, extra socks, and comfortable shoes. Straw hats are taboo. Thin clothing leaves the men liable to genuine suffering from cool nights, or wet weather.

No stiff collars are desired, as there is no opportunity to stay "dressed up." A soft shirt and clothing such as might be worn on a camping trip are recommended by the writer of the letter, who has suffered because of the kind of clothing worn to camp.

WHELPLEY'S BAND 30 STRONG WILL GO

When the big delegation of Washington and Fayette County Elks departs for Columbus, next Wednesday to attend the annual meeting of the State Association of Elks, the Whelpley Band, 30 pieces strong, will accompany the delegation and let the other Elks from all parts of Ohio know that Washington is on the map.

Elaborate plans are being made for the affair, and is expected that Washington Lodge of B. P. O. Elks will be one of the best represented in the state.

The indications point strongly to the Washington Lodge being honored by the selection of Mr. Jess W. Smith one of the leading members of the local lodge, as State President.

AIN'T IT THE TRUTH?

When you stop to count the victims you have known along the way,
Who have parted with their savings for the coming rainy day
For some rain-bow proposition, offered by a smiling gent
Who guaranteed a profit of some eighty per cent,
And when their hopes had vanished--like their rosy dreams,
And they shouted out a warning against such risky schemes,
You might think that kind of fishing was about played out, but wait--
There are suckers left a plenty, crowding up to snatch the bait.

And when you call to mind the fact, that ev'ry now and then,
Some man you thought was on the square is hustled to the pen
For juggling with the public funds committed to his care,
And dons the regulation stripes, and lets them clip his hair,
And remember that a wife and kids are made the shame to bear,
And shrink and hide their faces when his whispered name they hear--
You'd think a few warnings quite enough, but just the same,
Some other foolish guys will think that they can beat the game.

There are wrecks of men and women, you can see them any day,
Who have toyed with truth and virtue, and have thrown their lives away.

Though the serious consequences they've evaded for a spell,
Their steps just gravitated toward the well-worn way to hell,
And we hear their awful warnings, as they cry out in despair,
And you'd think--but what's the use? I'm telling you for fair,
With all that's done to keep the world from evil's blight and taint,
It looks as if most danger signs was just a waste of paint!

Sweden's Choice

The world had scarcely grasped the amazing disclosures of the deceit and dishonesty of German diplomats in Argentina when the same vicious conditions of affairs is disclosed with reference to German diplomatic activities in Mexico.

In Mexico, as in Argentina, the Swedish embassy is unpleasantly involved. In both instances the German representatives used the Swedish diplomatic officials to flagrantly violate their pledges of honesty and seriously compromise Sweden's neutral attitude.

One of two conclusions is irresistible. Either Sweden is hand in hand with Germany or Sweden has been basely imposed upon by Germany and in either event a declaration by Sweden seems imperative.

Either the Scandinavian nation must break with the Allies or with Germany. Sweden, it seems, can not longer act the role of dunce among the nations and maintain neutral relations with the allied nations upon the plea that she has been but the innocent dupe of bungling German dishonesty.

One disclosure subjected the good faith pretensions of Sweden to an almost impossible strain and two of the same kind in the western hemisphere seem to be irreconcilable with any thing save a dishonest alliance.

Swedes in the United States are inclined to attribute the regrettable entanglements to a pro-German government in Sweden not in sympathy with the people.

If that explanation is true Sweden had better depose her King and Queen and get lined up properly because the yankee secret service men are now on the job and there will be no more double dealing possible.

West and the East

Lovers of Base Ball, in this section will have an opportunity to see the world's championship series this year by journeying to Chicago where the team owned by the "old Roman" Chas. A. Comiskey will cross bats in at least half of the post season games with John J. McGraw's New York team.

Way back in the early eighties when Comiskey was playing first base for the old St. Louis "Browns" the base ball world was given its first big surprise when the famous Chicago team under the leadership of that brilliant old star of the long ago, Adrian C. Anson, was humbled by the representatives of the younger organization. That was the first world championship series.

Comiskey was a youngster in the big game then. Now he is a magnate and he wants to win another world pennant before the time calls him "out".

All lovers of the cleanest outdoors sports are unusually enthused this year, and millions who can't see the games played will watch the bulletin boards and besiege the newspaper offices.

Autumn Days

The glorious autumn weather of the last few days, following the light frosts of the earlier days of the week, again reminds us that nature is not unkind of our needs and is going to continue to do her "bit" toward winning the war.

September in all the glory of autumn season is at hand. The warm rays of the sun are drying up the corn for harvest. The growing processes have stopped and soon the rustling corn on the broad acres will be ready for the knife of cutter, the great pumpkin vines which have hidden themselves all during the growing season, back in the big fields, will be discovered and not many days like the last three need pass by until we are ready to view in comfort and with a feeling of security the frost upon the pumpkin.

The time will soon be here now when ice in the trough at early morning will bring only the knowledge that the season's work has been done by nature and by men.

These are the days when man sees the results of his labor being made ready for deposit in the granaries, when the joy of satisfaction comes, when we realize that what we have done, counts up in a material sense.

American Artillerymen in France

The presence of a strong contingent of American artillerymen in France and their participation in the handling of the big guns on the western battle front has just been announced to the public by permission of the censor.

Gradually, in detachment after detachment and unit after unit, the American forces are mobilizing in France. Carefully the war department has guarded news of departures from this side of the Atlantic and safe arrival on the European side.

The fact that thousands of American troops have been safely transported through the danger zones, that already almost every branch of the service is represented on the battle lines in France, by its American unit or contingent, proves good management, including a sane censorship of news.

The news that American artillerymen are now at work in France is a tremendous encouragement to the whole world and is but an added proof of how determinedly, how thoroughly and how speedily, in view of all conditions, our government has been working.

Poetry For Today

PEOPLE WE DON'T LIKE.

(Brooklyn Eagle.)
 The sort who pose
 As well as those
 Who never laugh, but cackle;
 The witless wag
 Who pulls a gag
 On anything he'll tackle;
 The weary wight
 Who's so polite
 He says "Indeed!" and "Surely!"
 The crazy cuss
 Who comes to us
 To say we're looking poorly;
 Who chew cigars,
 Who talk of "ears"
 And never hope to own one,
 And those who wheeze,
 "Who is this, please?"
 Most very time they phone one;
 Who call it "deef,"
 Who always beef,
 Who talk with wiggling features
 The many who
 Are anxious to
 Reform their fellow creatures;
 Who borrows things
 And never brings
 'Em back, the Chronic kicker,
 We'd add some more
 That grate and bore,
 Our list is quite a shocker,
 But we must close,
 For goodness knows
 The worst of all's the Knocker!

JOS. H. DONNELL ACCEPTS POSITION WITH SWIFT & CO.

Leaves for Chicago a Week From Monday to Become Member of Rate Board of Big Packing Company.

Mr. Joseph H. Donnell was called to Chicago a few days ago by Swift and Co. and has accepted the position of freight expert on the rate board of their traffic department, taking the place of the present incumbent who has been made traffic manager of their New York branch.

The position carries with it large responsibility and trained ability. Mr. Donnell is eminently fitted to meet its demands from his years of early experience in the railroad business and later in positions held in the transportation division of the United States war department and in the Interstate Commerce department. The latter position he resigned to associate himself with The Frank L. Stutson Co. of this city and during the short time of his connection with that company, has won for himself both business and personal recognition.

Mr. Donnell's polished and courteous manner has also led to an unusual personal popularity and while he is receiving congratulations galore upon his splendid offer, there is very general regret over the loss which it means to this city.

It is a multiplied loss in that it means the removal of Mr. Donnell and his wife from the social life of Washington, to which Mrs. Donnell (nee Louise Stutson) was eagerly welcomed back from Washington, D. C., and in which the hope was rife that their residence would be permanent. Mr. Donnell reports at Chicago a week from Monday and expects to leave with his wife and little son, Frank Stutson Donnell, next Saturday.

KIRBY HENDERSON IS ARRESTED FOR STEALING A FORD

Alleged to Have Taken Machine From This City One Night This Week, and Is Arrested in Hillsboro—Machine Recovered.

In response to notices sent out to be on the lookout for Ford automobile thief, who stole a Ford machine on the streets of this city one night this week Kirby Henderson, colored, aged about 20 years, was arrested at Hillsboro, Friday night, and the missing machine was found in his possession, it is claimed.

The machine belongs to D. H. Hanum, superintendent of the Sabina schools, and was stolen out of the streets in this city about midnight.

The young negro had run out of gasoline and while making efforts to obtain a fresh supply, was placed under arrest. He will be returned to this city without delay, and a formal charge placed against him.

Henderson has quite a record, having stolen two horses and served at term in the Mansfield reformatory for his work. The first horse stolen was taken from his father's barn, and the second was owned by a man named Green, residing at or near Hillsboro.

The catch is believed to be a good one, and may throw some light on the recent disappearance of the Os. Briggs Ford machine, which was stolen from the garage on East Temple street during the London Fair.

FUNERAL SERVICES OF BABY SON

For the second time in the past two weeks the death angel has saddened the home of Mr. and Mrs. John Allamon.

Short, but very touching services were held, Thursday afternoon over their baby son, Paul Spencer Allamon, and only two weeks before the same sympathetic friends had gathered at the home for the funeral services of the little twin sister Pauline.

Sincere sympathy goes out to the sorrowing parents in their double loss.

MEMOIR.

Paul Spencer Allamon, son of John and Elva Allamon, was born at Sabina, O., January 15, 1917, and died September 11, 1917, aged 7 months, 27 days. He leaves a father and mother, one sister and two brothers to mourn his loss. The funeral services were very brief and the tiny casket was borne to its last resting place by the same little girls that just two weeks ago had carried his twin sister Pauline.

God gave a double blessing when he sent into the home of Mr. and Mrs. John Allamon a dear little twin brother and sister, Paul and Pauline. For a few short precious months they filled the earthly home with joy and sunshine, then God called dear little Pauline to the heavenly home. After a brief period of great suffering, dear little Paul followed sweet baby Pauline to the spirit world. They were beautiful and lovely in life, and in death they were not separated.

CARD OF THANKS.

We desire to thank our friends and neighbors for kindness shown in the sickness and death of our darling baby.

MR. & MRS. JOHN ALLAMON.

SIMPLE SERVICES PRECEDE BURIAL

At the T. T. Beatty home near Seldon Saturday morning at ten o'clock Rev. Arthur P. Cherrington conducted services marked by their affecting simplicity, and honoring the wife and mother who slept peacefully amid a wealth of floral remembrance.

The home was filled to overflowing with relatives and friends who sorrowed with a personal grief that charged the atmosphere and extended in overflowing sympathy to the immediate family circle.

A beautiful memoir had been written by Mrs. Minnie Pine Brown, a warm personal friend of Mrs. Beatty's, and there was no word of its heart felt tribute but found its echo in the hearts of those who heard it.

Besides the reading of the memoir the minister's services consisted alone in the ritual scripture reading and prayer.

A long line of autos formed for the Washington cemetery where the burial was made in the family lot.

The pall-bearers were Capt. J. C. Bostwick, Mr. Harley Bostwick, of Mt. Sterling; Messrs. Isaac Carman, J. B. Mark, C. A. Deere and Oscar Winkle.

Relatives and friends from Greenfield, Mt. Sterling and all the country round joined with many from this city and Seldon at the services and burial.

CAVALRY MAN TRAINS HIS HORSE IN LEAPING OVER THE TRENCHES

OVER THE JUMPS AT AN ARMY TRAINING CAMP

"Over the jumps" at an American army camp. This trooper, watched by some of his comrades, is leaping a trench in preparation for the time when he may have to spur his mount over the shell torn country of France. Cavalrymen hope that when they get to France the American artillerymen will have shelled the enemy out of his trenches and compelled him to fight in the open, since mounted soldiers are of little use in trench warfare.

COAL EXPORTS IN NORTHWEST ARE RESTRICTED
(By American Press)
Washington, Sept. 15.—Continued export of coal to Canada in large amounts through Great Lakes ports, at the expense of the northwestern states, will be checked immediately by the fuel administration.

Dr. H. A. Garfield, the fuel administrator, requested the exports administrative board to permit no more coal to be shipped out of the country except under extreme restrictions and asked that no licenses be granted unless they are approved by the fuel administration. Coal heretofore, along with other American products, has gone to Canada under blanket licenses issued by collectors of customs.

"The fuel administration," said Dr. Garfield, "does not intend to cut off Canadian exports, but with this supervision it will be able to equalize the distribution of coal and see that the northwest and Canada both get their fair shares."

Coal has been moving towards lake ports for some weeks under an order issued by Robert S. Lovett, the government's director of priority transportation, directing that fuel shipments be given preference over other freight. The purpose of the order was to supply the northwest with an abundance of coal before the winter season closes shipping on the lakes.

Complaints coming to Dr. Garfield that much of the coal going to the lakes was not reaching the northwestern states prompted an investigation, which revealed that a great part of it was reaching Canada. In the period between Aug. 24 and Sept. 8 it was found out of a total of 1,755,812 tons of coal that reached lake ports 530,972 tons went into Canada. This is far in excess of the proportion of Canadian shipments by lake boats in normal times.

While Canada has been piling up a reserve store of coal the northwest is threatened with a shortage this winter, which, it is declared, may force industries to close down. The lakes will be open to traffic only a few weeks longer, and unless an ample supply is provided by ships the northwest will suffer. It will be impossible to transport enough by rail, with railway systems overtaxed by the movement of war supplies as they are now.

In other parts of the country the situation, while not as serious as in the northwest, is giving Dr. Garfield concern. New England states, which draw their coal supply from the West Virginia fields by water transportation from Hampton Roads, have not thus far received as much coal as usual at this time of the year. Seizure of coastwise shipping by the government has made more difficult the problem of supplying these states.

INTERESTING LETTER WRITTEN FROM WEST

Editor Herald:
Thinking a few of your readers would be interested in reading the description of a trip by a couple of Fayette countians through the west by motor car, we will describe a few points. We left Washington C. H. on July 31st, on our journey by way of Dayton, Ohio, from thence to Richmond, Ind., from thence to Indianapolis, where we stopped for the night. Crop conditions on the way were promising, especially tobacco. We saw thousands of acres of this precious product growing. From Indiana we proceeded by way of Danville, Ill., Champaign, Ill., Bloomington, Peoria, Galesburg, crossing the Mississippi river at Davenport, Iowa. Crop conditions on this route were simply fine. Corn and oats were never better. We never saw such a beautiful sight; the color scheme all green and yellow in corn and oats and grass. By the way, there was very little stock of any kind to be seen, compared with such a prospect of an abundance of feed. Now a word of interest that many of you would not know.

On leaving Bloomington, Ill., we discovered that we would take up the rail mark system. This system comprises many designs, each route has its design. Our first design from Bloomington to Peoria was the Indian head painted on the telephone poles. From Galesburg to Davenport was the Clover leaf. So you see, kind readers, one trip was so interesting that we could hardly realize but what it was a dream. On reaching Rock Island that thriving industrial manufacturing city, we drove down the long paved thoroughfare to what is known as the two bridges that span the Mississippi river. On crossing this famous bridge a grand spectacle met our view, on looking both up and down the river, we could but observe the industry, and pleasure as well, being carried on at this point. Beautiful to behold. On leaving the bridge we entered the busy and thronged streets of Davenport, a beautiful and well regulated city. Leaving Davenport we took up a new trail, west, known as the river to river road, marked with two large letters "R. R." Going over hills, cross valleys, over plains, we arrived near Iowa City, where we stopped to visit relatives and friends.

Sideswitting off to Cedar Rapids, and Waterloo, both thriving cities, Cedar Rapids has as one of its industries the Quaker Oats enterprise, the largest of its kind in the United States. Iowa City boasts of one of the largest college institutions in the west.

Resuming our journey from Iowa City we motored south and west to Knoxville, Iowa. Crop conditions at this time were fine. Fine prospects for large corn crop. Iowa never had such a heavy crop of oats, yielding from 50 bushels to 115 bushels per acre. Hay crop light. More stock in Iowa than any place we've seen and in good condition. Quite a good many herds of cattle roaming the pastures. Also quite a good many hogs; not so many sheep. A few days at Knoxville, we resumed our journey south, by the Black Diamond trail, intersecting with the Jefferson Highway through northwestern Missouri by the way of St. Joseph, Mo., to Kansas City.

Northwest Missouri has fine prospect for large crop of corn. It seems as if Indiana, Illinois, Iowa and Missouri could provide the world with corn and oats. Weather conditions at present are fine for maturing this bountiful crop.

Now, Mr. Editor, if this doesn't find space in your valuable paper, just lay it in the waste basket nicely. Will write from Kansas a little later.

Yours,
W. E. STURGEON & WIFE,
Wichita, Kansas.

SEC'Y DANIELS TALKS ON GROWTH OF NAVY

(By American Press)
Annapolis, Md., Sept. 15.—Secretary of the Navy Daniels, in addressing the graduation class of 192 ensigns of the naval reserves here, declared that there are three times as many ships in commission in the navy today as there were six months ago. The secretary traced in detail the growth of the navy from the average expenditure of about \$145,000,000 a year, in effect only a year ago, to the expenditures which will be made next June, which will amount to two billions.

"The impulse that has made possible our rapidly expanding navy came from a speech made by President Wilson in St. Louis on the third day of February, 1916," declared Secretary Daniels. "He then declared, 'there is no other navy in the world that has to cover so great an area of defense as the American navy and it ought, in my judgment, be incomparably the most adequate in the world.' Following close upon the declaration by the president congress took a radical and a forward step on its naval program."

WASHINGTON VS. WILMINGTON

Our old friend, "BUN" HUNGLING, will be with us next Sunday and will do the catching for Washington. He has just finished the season with the Springfield Central League Team. There will be other changes.

NOTICE! If you care to see base ball continue the balance of this season, and likewise next season, then it is necessary for you and your friends to attend the games. Washington has a good team—as good a team as ever represented the city. It is costing the local management considerable to maintain this team, and unless the base ball fans attend the games there can be no base ball next summer.

SUCCESSES ARE SCORED AGAINST SUBS
(By American Press)

London, Sept. 15.—The British navy recently has accounted for eight German submarines. Brief description of eight encounters are given to the public. These eight sea battle pictures were selected so as to cover practically the whole ground of anti-submarine activities.

In one case there was a battle between an auxiliary cruiser and a submarine, in another an engagement between a seaplane and a submarine. Then a battle between two submarines, in which the British submarine captain proved himself the better man, and finally two tales of successes of armed merchantmen against the enemy.

Several survivors from sunken U-boats were picked up. A seaplane attacked a submarine which she observed maneuvering into a position to fire a torpedo at a passing merchant ship. Before the seaplane arrived over the submarine the latter submerged, but three bombs were dropped on the position where it disappeared. Five minutes later a large upheaval was noticed when the bomb was dropped.

The wedding will be the simplest imaginable. The ceremony will be performed by Rev. Dr. Washington Gladden of Columbus. Thomas S. Blair, Jr., will give his daughter away.

Governor Cox will have as his attendant Adjutant General George H. Wood of Ohio as best man and Colonel Joseph S. Hall of Cincinnati. After a short trip to Hot Springs, Va., Governor and Mrs. Cox will divide their time between his beautiful new home at Dayton and the Deshler hotel at Columbus.

ALARMIST REPORTS PRONOUNCED UNTRUE
(By American Press)

New York, Sept. 15.—Alarmist reports of the possibility of a flour famine in the east are without foundation, according to statements made here by Julius H. Barnes, president of the Food Administration Grain corporation, and James F. Bell, general chairman of the milling division of the food administration. Mills at Minneapolis are running now almost at full capacity. Mr. Barnes said, while mills drawing supplies from the northwest by way of the Great Lakes will get their full quota after this week, MIH in the southeast and central west are operating on a normal basis, he declared. "The tide of flour is turning to the east and will soon be upon us," Mr. Barnes said. "The food administration has 70,000 barrels in New York for sale to local bakers."

Bulgaria's "Royal Nurse," Who Died After Long Illness.

A "CLOSE-UP" OF GEN. GLENN

What manner of man is this Major General Glenn, in whose care 38,000 Ohio mothers have consigned their sons?

Here is the composite answer of the 38,000 sons—a prince.

One would pick him out of a crowd, even though he were in civilian clothes, and say, "Ah, there is a general."

Stout, erect, his hair and closely cropped mustache turning from gray to white, General Glenn carries his 51 years well. An unbending will gleams from his eyes but there is just that touch of gentleness intermingled with his dignity which makes him approachable for the men of lowest rank.

General Glenn is a native of North Carolina. He graduated from West Point with the class of 1877 and later, while stationed in Minnesota studied law at the University of Minnesota and received the degree of bachelor of laws.

It was while in command of the Minnesota barracks that he was given the "eagle." He is the author of a recognized book on international law.

General Glenn's mouthpiece—his divisional adjutant—is Major Gordon Johnston, a member of the famous southern family of Generals Johnston, the most famous of whom was General Albert Sidney Johnston, who was killed at the battle of Shiloh in 1862, while in command of the Division of the West of the Confederate army.—Chillicothe News.

DOUBLE HEADER ENGINES CRASH

Traffic was tied up for a short time and some damage to rolling stock resulted, Friday, when two engines of a double-header, B. & O. west-bound freight came together in an unusual accident at North Street crossing in this city.

It seems that the forward engine had run down after water or coal, and that the rear engine was doing some switching. In running back to couple into the rear engine, the first engine smashed into the other.

POLICE PATROL CAR IS REPAIRED

The old Davis touring car, purchased for use as a police patrol auto, has proven a rather expensive luxury to date, upward of \$75 in repairs having been necessary since the machine was taken over by the city.

At the present time there is no place for the auto except to stand outside the engine house, or in a garage where it is necessary to pay rent.

The old machine cost the city \$300.

SOME FIND
(By American Press)

Phoenix, Ariz., Sept. 15.—Discovery of \$400,000, cached in an out-of-the-way spot in the hills of Graham county, this state, is reported by H. R. Whitman of Solomonville, who is now in Chandler, near here. The discovery was made by Joe Walsey, a cowboy, who while hunting stray cattle came upon an iron box secreted in a tree trunk. Its contents consisted of old Spanish gold coins and gold vessels. The gold has been taken to Safford, seat of Graham county, and placed in security, according to Whitman. It is believed that Walsey discovered a hiding place of priests who left the section about seventy-five years ago.

DUTCH MINISTER IS CALLED HOME
(By American Press)

Washington, Sept. 15.—The Netherlands minister to the United States, Chevalier W. L. F. C. Van Bappard, has been recalled by his government. He called upon Secretary Lansing to announce the fact and to ask if Mr. Van Royen, who has been named to succeed him, will be acceptable to the United States. Van Bappard, who has been minister here for four years, will be transferred to a European post, possibly to a diplomatic position in his own country. He said the matter of his transfer had been first broached last February, but no decision was reached until recently. The new minister, Mr. Van Royen, was formerly secretary of legation here and has had much experience in diplomacy. He married Miss Winthrop of Boston.

DUTCH MINISTER IS CALLED HOME
(By American Press)

Washington, Sept. 15.—The Netherlands minister to the United States, Chevalier W. L. F. C. Van Bappard, has been recalled by his government. He called upon Secretary Lansing to announce the fact and to ask if Mr. Van Royen, who has been named to succeed him, will be acceptable to the United States. Van Bappard, who has been minister here for four years, will be transferred to a European post, possibly to a diplomatic position in his own country. He said the matter of his transfer had been first broached last February, but no decision was reached until recently. The new minister, Mr. Van Royen, was formerly secretary of legation here and has had much experience in diplomacy. He married Miss Winthrop of Boston.

SOME FIND
(By American Press)

Phoenix, Ariz., Sept. 15.—Discovery of \$400,000, cached in an out-of-the-way spot in the hills of Graham county, this state, is reported by H. R. Whitman of Solomonville, who is now in Chandler, near here. The discovery was made by Joe Walsey, a cowboy, who while hunting stray cattle came upon an iron box secreted in a tree trunk. Its contents consisted of old Spanish gold coins and gold vessels. The gold has been taken to Safford, seat of Graham county, and placed in security, according to Whitman. It is believed that Walsey discovered a hiding place of priests who left the section about seventy-five years ago.

ROOT AT CHICAGO

(By American Press)

Chicago, Sept. 15.—Treason to America in the war was defined by Elihu Root and labor was pledged by Samuel Gompers to fight until world terrorism has been overthrown, at a patriotic rally held here by the National Security league, for the announced purpose of vindicating Chicago of alleged intimations of unpatriotism. Mr. Root declared that those who are opposing the war are rendering more effective service to the Kaiser than if they were in the German army. "It is impossible to resist the conclusion that the greater part of them are at heart traitors to the United States," he said.
